Démontage de la cartouche du dessiccateur

1. Mettre a l'atmosphère le dessiccateur.
2. Dévisser la cartouche à l'aide d'une clé universelle.
Retourner la cartouche pour recyclage ou à la poubelle.
conforme a la norme d'élimination des filtres a huile.

Montage de la nouvelle cartouche

1. Nettoyer le siège ainsi que le filetage de fixation en bon état.
2. Graisser légèrement le joint et le filetage de fixation.
3. Visser manuellement la nouvelle cartouche.
contact du joint sur le corps, serrer la cartouche à la main.
tour (m=20nm).
4. Alimenter en air le dessiccateur en vérifiant que le joint est bien serré.
Eventuellement rajuster la cartouche.
5. Indiquer la date du prochain remplacement de la cartouche dans l'emplacement prévu à cet effet. La cartouche doit être remplacée au moins tous les deux ans, en cas de présence d'impuretés importantes, ou plus souvent.
